

FTSMCS AGR Jobs Module

Introduction to FTSMCS Jobs

- Full Time Support Management Control System (FTSMCS) is an “automated data processing and Information Technology (IT) support services (maintenance, technical and analytical) to virtually all of the operational divisions within the NGB Headquarters. It is designed to facilitate and streamline the exchange of information within the National Guard.”
- The overarching goal for transitioning to FTSMCS is to improve HR systems and processes within AGR Branch, with the emphasis of streamlining and improving upon the AGR New Accessions process.

The Benefits of FTSMCS Jobs

- All applicants will submit their packet electronically in FTSMCS Jobs.
- All applicants will have the ability to save pending applications to complete later.
- Prevents application submittal if mandatory documents are missing, minimizing applicant errors.
- 95% of all notifications are conducted automatically via FTSMCS automations.
- FTSMCS Jobs is a one-stop-shop for applying for an AGR Vacancy Announcement.
